Definitely unpublish it if that's what it takes! ☺

OK guys, this is in place and showing on wcms, but is taking its time propagating to www2. Can I unpublish the region 8 page? I think that may get it to stick. If it doesn't, I'll immediately re-publish so it's not a dead link. Is that OK?

Hi everyone!

<http://www2.epa.gov/goldkingmine> is finally live now.

So, we'd love to have <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response> redirect to <http://www2.epa.gov/goldkingmine> immediately.

Thanks!!
